

Dabbat al-ardh described in the Qur'an and the hadith denote to computer and internet technology (Allah knows the truth)

Narrated from Ibn Abbas: "Its face looks like human face, its **Beak is hairy...**"(Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

Its face looks like human face: With the statement "its face looks like human face", it is denoted that Dabba will have characteristics similar to humans. Computers of our day also see by means of cameras, hear by means of sensory systems and speak directly just like humans do.

Its beak is hairy: The term "its beak is hairy" may be denoting to the electric cable consisting of fine cables and used for charging the computers. Animals' beaks are like plastic, they even resemble mica. The plastic power cord consisting of fine cables may be referring to the simile in the hadith.

Narrated from Hudhaifa: "**No one will be able to catch up with him and the one escaping it will not be able to avoid.**" (Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

Today, it is impossible to reach the speed of computers in the transmission of information. And during the time Dabba appears, even those who do not want to listen to the Qur'an and the advice of the Muslims, will absolutely be able to learn Allah's Mighty power and the morality of the Qur'an and they will not be able to run away since computers enter every house.

Narrated from Abu Huraira: "**All sorts of colors are available in Dabbat al-Ardh**" (Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

Now, today's computers consist of 16.8 million color.

Narrated from Abu al-Zubair, "**...Its eye is like the eye of swine, and its ear is like the ear of an elephant...**" (Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

In today's computers, there exist cameras in the shape of a small eye. By means of these cameras computers are able to perceive every kind of image.

The appearance of laptop computers of our day resemble elephant ears. By means of audio recording feature of the computers, all the voices in the location can be easily detected and even recorded.

It will have **Prophet Musa's (as) staff** by its side...It will cry out aloud: "People have no longer deep-felt faith in our verses." Then it will stamp the believers and unbelievers alike (it will become a means for us to recognize believers and unbelievers)(Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

It will possess the Prophet Musa's (as) staff: Allah has shown one of the greatest

proofs of Creation from nothing to Darwinists and materialists of that time by transforming the Prophet Musa's (as) staff into a live snake instantly. By way of computer and Internet technology, Allah will show the proofs of Creation to all Darwinists and materialists in the End Times.

It will stamp believers and unbelievers alike:

It is understood that in the End Times both believers and unbelievers will confront with the seal of our Prophet (saas) through computer and the Internet. In the hadith, it is denoted that everyone who connects to the Internet will see the Messenger's (as) seal and this seal will increase the believers' zeal and enlighten their faces and degrade the unbelievers' arrogance.

"It will encounter **a believer and it will illuminate his face when it stamps it.** When it stamps the disbeliever it will turn as black as pitch." (Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

Beliefs of the believers will strengthen, who come across with the evidence of the existence of Allah, verses of Quran, works featuring the Islamic moral values and the seal of our Prophet (saas) when they are surfing on the internet. Besides, the faces of unbelievers who come across with the seal of our prophet (saas) will be darkened because of the strength of their rage.

"**...It will cruise on Earth like a star. Those chasing it will not be able to catch up with it,** and those escaping from it will not be able to avoid it."(Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

Computers can deliver all data to all over the world via Internet. Since computers are in every house, people will not be able to flee the right and truth.

"It will appear three times and shout aloud with a sound audible by everyone between the heavens and the earth."

"It will head towards the East and shout aloud, all the ones in the East will hear its sound. It will head towards Damascus and shout aloud. All the Yemenis will hear its sound."(Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

Dabbat al-Ardh dominates underground, overground and the heavens. There will be no city, no house it would not reach and enter. Nowadays, computers have entered all houses and thanks to satellite technologies and Internet; from people working underground to those living on top of skyscrapers or those voyaging by plane in the air, voice and images will reach to all people.

It will approach someone performing his daily prayer (salat) and **stamp** him between his eyes **with the seal of a liar** saying: "This prayer of yours has not been established, because you are a liar and an utter hypocrite. "
(Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

Hypocritical people who distort their tongues by quasi bringing the Qur'an as a witness, acting in a way as if they were devout although opponents of the Qur'an; are being answered and it's being made clear that they are liars.

Related above upon the remembrance of the declaration that it will **kill the satan** (eradicate it ideologically).
(Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

The system of satan, Darwinism, materialism and atheism will be annihilated by the publications informing people about the oneness and greatness of Allah. The religion

of Satan will thus be destroyed.

"...It will cover three-days distance in one step..." (Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah)

Nowadays, thanks to computers and internet, data can be transferred to the other end of the world in seconds and all people can be reached.

MR. ADNAN OKTAR'S STATEMENTS ON DABBAT AL-ARDH (29 August 2009)

Adnan Oktar: Now let's explain the Dabbat al-Ardh (dabba). Yes. I take refuge in Allah from satan. In the Qur'an Allah says: "So put your trust in Allah. You are clearly on a path of truth." (Surat an-Naml, 79) A believer will put his trust in Allah. If he is on righteousness, his heart will be very much at ease insha'Allah. Because Allah says in the Qur'an, "You will not make dead men hear." (Surat an-Naml, 80) That is, Allah calls unbelievers to be dead. Allah says; "They are dead not alive." Also Allah states; "Such people are like cattle. No, they are even further astray!" (Surat al-A'raf, 179). That is, Allah tells that in terms of their conscience, they have collapsed. Allah also states in the Qur'an: "You will not make deaf men hear the call when they turn their backs in flight." (Surat an-Naml, 80) That is, in no way they want to hear. For instance, a Muslim comes and as soon as he comes, he excuses himself and runs away. To give another example, the call to prayer is made on TV, he makes it turn off. Alternatively, the Qur'an is read, he again makes the TV turn off. Or, for instance, while sitting in a restaurant or somewhere else, a devout person enters, he immediately leaves that place. But Allah says in the Qur'an, "you will not make deaf men hear the call when they turn their backs in flight." (Surat an-Naml, 80) He does not want to hear. "You will not guide blind men out of their error." (Surat an-Naml, 81) The man is blind; you explain him again again, but he does not understand. As long as Allah does not grant him guidance, he does not understand. Allah says in the Qur'an "You will not make anyone hear except for those who have faith in Our Signs..." (Surat an-Naml, 81) This man has fear for Allah. He is the one who listens to advice. "... and so are Muslims" (Surat an-Naml, 81) He needs to be guided by Allah and he should have fear for Allah. "When the Word is justly carried out against them, We will produce a beast from the earth..." (Surat an-Naml, 82) Dabbat min al-Ardh. A being which is a product of the earth. A dabba...Something that moves...or, the same word is used for an object that walks by itself. Dabba; in other words, something that moves. "...that will tell them that mankind had no real faith in Our messages." (Surat an-Naml, 82) That is, it gives them information regarding faith. Something that gives information. Now, let's try to understand dabba. "When the Word is justly carried out..." When does this word come? At the Doomsday. The time when the Mahdi (as) appears. When the Word is justly carried out. The Doomsday is fairly close. It is already the last moments because the Doomsday is expected in 2120. That Word is already carried out insha'Allah. "We will produce a beast from the earth that will tell them that mankind had no real faith in Our messages." You see, "real faith", that is, there is "real faith" and "real faith." Now, in the End Times, by the light of the Qur'an, "real faith" is being provided. "That will tell them that mankind had no real faith in Our messages." We look at computer. Does this speak?

Oktar Babuna: It speaks.

Adnan Oktar: It speaks. It also writes.

Oktar Babuna: Yes.

Adnan Oktar: It explains too. When you ask a question it immediately answers, right? What is it made of?

Oktar Babuna: It is made of the elements in the earth such as iron, aluminium, zinc.

Adnan Oktar: Isn't it? Magnesium, copper, cobalt, zinc; all of them exist in it. Silicon exist in all of them. It is, first of all, made of earth. That is understood. It speaks. It occupies itself with the remembrance of Allah. It provides information about Allah. Does it give absolute information?

Oktar Babuna: It does.

Adnan Oktar: Does it give explicit information?

Oktar Babuna: It does.

Adnan Oktar: Good, now let's analyze according to the hadith. How is its speed?

Oktar Babuna: It is very fast.

Adnan Oktar: Look what it says, "No one will be able to catch up with it, the ones that escape will not be able to avoid." (al-Barzanji) That is because he does not want to learn the religion in his house but once you turn it on, he meets Allah, Allah's Messenger (saas), the Prophet Muhammad (saas) and the seal of our Prophet (saas). He meets with Allah's commandments. He comes across with Allah's commandments, the verses of the Qur'an and the hadith. He meets with the collapse of Darwinism, materialism. Wherever he goes, he comes across with them. What does it say? The ones that escape will not be able to avoid.

It also says that it will be colorful. That beast has all kinds of colors. That dabba, that object, that equipment has all sorts of colors. Do its images have colors?

Oktar Babuna: Yes.

Adnan Oktar: Does it have all sorts of colors?

Oktar Babuna: It does.

Adnan Oktar: Is it compatible with the hadith?

Oktar Babuna: It is.

Adnan Oktar: It says the Prophet Musa's (as) staff will be next to it. Do you prove creation in the Internet?

Oktar Babuna: Yes we do, insha'Allah.

Adnan Oktar: What did the Prophet Musa (as) throw and prove to the Pharaoh?

Oktar Babuna: Creation.

Adnan Oktar: He proved Creation, right? Look what he said. Allah creates an animal in a moment. He was not created out of the mud of the Nile. This means it says Darwinism of that time was erroneous. It says what was right was creation. He says

look, I create a tree, it comes to life. Consequently your claim of chance is not right. Allah creates, right? It will prove creation just like the Prophet Musa's (as) staff. It will tell the creation. What does it say; when it imprints the believer's face, his face will be very bright. Do you feel relieved when you see our Prophet's (saas) seal here, in the Internet?

Oktar Babuna: Yes, I do.

Adnan Oktar: Do you feel happy?

Oktar Babuna: I do.

Adnan Oktar: What does exist in our Prophet's (saas) seal? Allah, Muhammad (saas), Allah's messenger. What does the Internet communicate? It communicates Allah. It communicates the Prophet Muhammad (saas). It tells that he is Allah's messenger. And it brightens a face. The face becomes brilliant. It says it will char the unbeliever when it seals him. When the unbeliever meets it, his blood pressure rises, he turns purple. When he reads the facts there. His blood pressure rises up to 18, to 20. He feels suffocated, he becomes bored. He goes somewhere else. But he also sits across it there. That is, the unbeliever, the one who does not believe. It seals the one who does not believe. Yes. Look, it is said, it will cruise on Earth like a star. It will have an extraordinary speed; the ones who chase it will not be able to catch it. That is, it is exceedingly fast since it is the speed of electricity. It will shout out with a sound audible by everyone between the earth and heavens. Does this Internet also function under the earth?

Oktar Babuna: Yes, it does.

Adnan Oktar: Does it function above the earth?

Oktar Babuna: Yes, it does.

Adnan Oktar: Does everyone hear it?

Oktar Babuna: Yes, everyone hears it.

Adnan Oktar: Yes, it will head towards east and everyone in the east will hear its sound. It will turn to Damascus and shout. All Yemeni will hear its sound. That is, it indicates all the directions of the entire world. Everyone in every place of the world will hear its sound. Look it says: "It will brand the point between the two eyes of the hypocritical, insincere people with a stamp on which it is written 'liar'." (al-Barzanji) Dabba seals it with the stamp of Allah's messenger (saas). It says, you are telling a lie, Darwinism is a lie, materialism is a lie. Dabbat al-Ardh proves this lie to them. Is that clear? And Dabbat al-Ardh is the helper of Hazrat Mahdi (as). It is also the helper of the Prophet Isa (as) and also it is a sort of sword of him. It is his spiritual sword. It says it will kill the satan. What is satan? The dajjal. What is dajjal? Darwinism, materialism, the system that has no fear for Allah. What does it say? It says it will kill satan. Now, do we kill the satan with the Internet? Do we eradicate Darwinism, materialism? Has the hadith come to be true in its true sense? Yet it has. It will cover three-days distance in a single step. It is exceedingly fast. For instance right now people all over the world is watching it. It is stated that Dabbat al-Ardh will spread everywhere in the world. It says, it will have branches everywhere. It will reach everywhere. It will reach the earth. It will reach the heavens, and the earth. There will be nowhere that it does not reach. Even it will enter every house. It is stated that it will enter every house and stamp it with the seal of our Messenger (saas) insha'Allah.

Oktar Babuna: Insha'Allah

Adnan Oktar: Hazrat Jaffari Sadiq states the following; "It is almost as if I see the Qaim, the Hazrat Mahdi (as)." He takes our Prophet's (saas) convention sealed with golden stamp out of his pocket. Hazrat Mahdi (as) will use our Prophet's (saas) seal. Gold, it is said, gold. The color is also referred. It opens the seal with a golden seal. It opens its seal and reads them to people. There is an account. The Prophet Isa (as) will take and open it. He will open the ark. The Prophet Isa (as) finds an ark, and he opens it and finds a seal in it. The seal of the Prophet Isa (as) and it is related that he will find a thousand books. These books are ready; before Hazrat Isa (as). These are the books prepared by Hazrat Mahdi (as). With these books he will revive Islam, the essentials of the morality of the Qur'an and Sunnah.

These are from the book, "Risalat al-Mashrab al Vardi fi Mazhab al- Mahdi, Ali ibn Sultan Muhammad al-Khari- page 4". These are the books that date back to 700-800 years. They are 1000 years old. These are told in these books.
