

Libya

A9 TV, 12 September 2012

(The American Ambassador Chris Stevens and three embassy officers have lost their lives in the attack towards the Benghazi Embassy of the US in Libya. The Libyan government has apologized to the US people and the whole world. It has been stated that the Ambassador Stevens died from smoke inhalation in the Embassy. Afghanistan blocked YouTube in the country in order to prevent the movie from being watched.)

What are you going to ban? If you make it famous this much, people would somehow go and watch it anyway. They can watch it secretly. I mean you are the one encouraging these people. You entice their curiosity. So they make the most important celebrity out of a common punk in the street. They are talking about themselves in that movie, where is our Prophet (saas) in it? For instance they draw a sordid caricature and they say –may Allah forbid- "This is the caricature of the Prophet (saas)". That person is drawing his own caricature.. Why should it be the caricature of the Prophet (saas)? Does it at all look like our Prophet (saas)? Our Prophet (saas) is an outstanding beauty, what does that caricature have to do with it? But you accept their clamor and call it the caricature of the Prophet (saas). So you are the one libeling! Because you accept their insults!

Without the Unity of Islam, people's minds remain empty and such blank minds create such delirium. On every whim, they throw themselves to streets and make scenes, cry out and scream. All of them employ barbaric methods, if you pay attention you see that they all do barbaric things. The mentality in Libya would constantly create this. I mean what is the meaning of their apology? They would do the same things in a breath.

The education system in Libya is a Darwinist and materialist education. They are teaching Darwinism at schools day and night. Just like it is in Turkey, a Darwinist, materialist education is obligatory in Libya. The administration is socialist anyway, there is a communist regime. Gaddafi has gone but the mentality has not changed. They are training Darwinist, materialist, terrorist people. It writes "Muslim" on their IDs and they call such men Muslim terrorists. Yet they are not Muslims, they are Darwinists. They are Darwinists, materialists, what has being a Muslim to do with it? What does a Muslim say? He says, "Allah has created living beings, Allah created the universe." What does a Darwinist, materialist say? "Allah did not create them. There is no God, everything happened through coincidences." In the Darwinist, materialist system, Allah is denied. Accordingly a Darwinist youth comes into being. And thus such killings would go on incessantly. The Islamic world would remain being miserable in pieces. The only solution is the Unity of Islam, the Turkish-Islamic Union and the appearance of Mahdi (pbuh), the appearance of Jesus Messiah (pbuh). Apart from that you do see disastrous news items everyday night and day on televisions. And these men keep asking us, "Why are you not mourning everyday night and day?" And they are constantly lecturing us about mourning. Nowadays they invented a mourning literature. They keep telling us, "You have to mourn every single day." I mean they are convinced that they have found the ways to materially and spiritually enslave the nation.

(US Secretary of State Hillary Clinton, who claimed that the attack on the embassy in Libya was arranged by a small barbaric group, said that the Libyan people or the government cannot be held responsible for this attack. US President Barack Obama said that they protest the libels against religion, yet they also are against the meaningless violence that caused the American diplomats be killed in Libya.)

There is a bigoted mindset in Libya, there are many bigot groups. Islam as the Qur'an depicts is something different, but in Libya there is a system of polytheism, there is a polytheist system. When you ask an idolater, he says, "I am a Muslim." I mean he wouldn't say, "I am an idolater,"

he would say, "I am a Muslim," yet he is an idolater. There is the fierceness of idolaters and they cause misery, pain and restlessness to the world. There is no solution other than the system of the Mahdi. Obama has to see this fact, Putin has to see this fact as well. If they have seen this, they need to make haste. I mean this is not something that could be delayed or else afflictions would constantly rain down on them.

(Following the incidents in Egypt and Libya, there has been a call for revenge from the Taliban. The statement given in the name of the Taliban stated "Muslims should be ready to fight against and take revenge against Americans.")

See here, Obama is putting on socialist manners and stalling the American public. What is the relationship with socialism and so? There is no salvation other than the system of the Mahdi and Jesus Messiah. There is no solution other than the Unity of Islam. Attempting to save America with socialism is in vain, I mean you would ruin it, you would spoil the existing situation, you would smite America.

You should accept materials as if they do exist. Allah wants us to do so. I mean, we understand in our nature that Almighty Allah wants that from us. He created us in a way that we would accept materials as if they do exist. You would accept materials as if they do exist. You will live accordingly and the system is according to that perception, so that you wouldn't be able to step out of it even if you wanted to. When you put your hand on it you feel its hardness. Your head aches, someone laughs, the wind blows. I mean, because you are designed in a way that you feel the existence of the materials compulsorily, you cannot get out of that system even if you wanted to anyway. What Allah wants from us is that we accept materials as if it exists. I mean every day you will recognize that "the mountains exist", "people exist." That is how it is, according to the religious law as well.
