MISTAKES ARE PART OF DESTINY

By: Dr. Harun Yahya / Ankara, Turkey

No one wants to make a mistake and do himself or others mischief. However, making mistakes is an important part of our trial in the life of this world. Allah created our trial in the life of this world in this way. Anyone can make a mistake but what is important is that he repents after his mistake and strive not to repeat this mistake. Allah reveals in the verses of the Qur'an that human beings are weak creatures who can forget and be mistaken. A person can make a mistake when he does not think something through, ignores something, does not take the necessary precautions, is overwhelmed by his weak points, forgets or is mistaken. This is very natural. However the important thing is how the person reacts after this, rather than the mistake itself. However big the mistake is, as soon as the person decides to resign himself and begins to show the attitude hoped to please Allah, that mistake disappears -by Allah's leave. Almighty Allah reveals as such in Surah Al-Imran: "Those who, when they act indecently or wrong themselves, remember Allah and ask forgiveness for their bad actions (and who can forgive bad actions except Allah?) and do not knowingly persist in what they were doing." (Surah Al-Imran, 135) Allah Creates Everything We Do - Everything a person lives throughout his or her life, everything they do, every situation they face, all of them are created by Allah with all of the pros and cons. In the verses it is revealed that not even a single leaf falls without the knowledge of Allah. (Surah al-An'am, 59). In Surat al-Qalam, it is revealed "Everything they did is in the Books. Everything is recorded, big or small." (Surat al-Qamar, 52-53). This means that the person makes that mistake because Allah wills him to do so; it is in his destiny to make that mistake. When he acts according to the Qur'an, something good will happen after that mistake. For example, a person may break a vase when walking by it because he is not careful enough or does not look ahead. Or he can bump into a dinner plate prepared with great effort and knock it off a table. He may cause the people waiting for him to delay their jobs because he fell asleep. Now in all these there is a variety of reasons created by Allah. Allah is the One Who breaks that object. Maybe that object would have caused a conflict between its owners or broken in a dangerous way that would harm someone. Maybe Allah will make a much more beautiful one to be purchased instead. In the same way, Allah is the One Who makes the food spill on the floor. Maybe there is an bad ingredient inside that food and it would have made someone ill. Maybe that food would have prevented that person from eating something healthier.

Hiçbir **insan hata** yapmak, bu **hatasıyla** kendisine ya da başkalarına **zarar** vermek istemez. Ancak **hata** bu dünya hayatındaki **imtihanımızın** önemli bir parçasıdır. **Dünya hayatındaki** eğitimimizi **Allah** bu şekilde yaratmıştır. Her **insan hata** yapabilir ancak önemli olan, bir kişinin **hatasının** ardından **tevbe** edip **ders** çıkarması ve bu **hatayı** tekrar etmemek için **gayret** göstermesidir.
