

# A Magnificent Book That Defies Darwinism: Atlas Of Creation

**POLITIKEN.DK**

*Politiken*, one of Denmark's largest dailies, once again referred to *Atlas of Creation* on its web site. The article in question, which appeared on 12

December, 2007, said the following about the content of the *Atlas*, published by [Global Publishing](#):

The Turkish publishing house, which has already brought out a series of books and other works that reject Darwin, has now attracted considerable attention in the wake of its publication of **the magnificent Atlas of Creation**, with its 768 pages and many colored illustrations... **The book proves that Allah created the Earth, human beings, and animal species in exactly the same forms they possess today** and not only demonstrates that the theory of evolution is mistaken, but also that it underlies everything from Nazism to Communism, racism and terrorism....
