

Scourges Stemming From Darwinism: Communism, Fascism, Satanism And Terror I

Darwinism, communism, materialism, violence and terror are all inseparable parts of a single whole. Since Darwinism regards human beings as aimless animals, it leads people who adopt this perspective in the direction of rebellion, conflict, anarchy, lovelessness, selfishness and immorality.

Darwinism, communism, materialism, violence and terror are all inseparable parts of a single whole. Since Darwinism regards human beings as aimless animals, it leads people who adopt this perspective in the direction of rebellion, conflict, anarchy, lovelessness, selfishness and immorality.

People raised under Darwinist indoctrination, which turns them away from the values that make human beings human and suggests that life is a battleground, attach no importance to the family, religious moral values or honor and virtue and are quite capable of turning toward any heretical ideology or movement. Movements based on Darwinism were responsible for the worst destruction, wars, acts of terrorism, mass slaughter and genocide in the last century. Darwinism inflicted communism, fascism and war on the world as a whole and terrorism on Turkey. Darwinism is the key to all the problems of all kinds that have arisen over the last 150 years.

Darwinism Is Inextricably Linked to Communism and Terror

All ideologies rooted in materialism and Darwinism deny such concepts as moral virtues and spiritual matters, and regard human beings as solely material entities, as a kind of animal. Indeed, the bloody communist and fascist dictators of the past based all their ideologies and actions on Darwinism.

Karl Marx set out the link between Darwinism and communism as follows:

"Darwin's work is most important and suits my purpose in that it provides a basis in natural science for the historical class struggle." (Letters: Marx-Engels Correspondence, vol. 2, p. 126).

Lenin said:

"The whole theory of Marx is an application of the theory of evolution—in its most consistent, complete, well-considered and fruitful form—to modern capitalism." (V. I. Lenin, *State and Revolution*, New York: International Publishers Co., Inc., 1932.).

Marx said:

"...this is the book that contains the natural-history foundation of our view point." (Marx and Engels, *Letters*, p. 426)

The Chinese communist dictator Mao, who slaughtered vast masses of people, openly described the heretical ideology he based himself on:

"CHINESE SOCIALISM IS BASED ON DARWIN AND HIS THEORY OF EVOLUTION." (K. Mehnert, *Kampf um Mao's Erbe*, Deutsche Verlags-Anstalt, 1977)

Stalin said:

"There are three things that we do to disabuse the minds of our seminary students. We had to teach them the age of the earth, the geologic origin, and Darwin's teachings." (Kent Hovind, *The False Religion of Evolution*, <http://www.royalse.com/scroll/evolve/ndxng.html>)

Terror is an effective method that separatist organizations rooted in Darwinism employ to achieve their aims. Communist leaders have recommended terror to their supporters as an indispensable weapon. The actions of separatist terror organizations are all in line with the recommendations of communist leaders and ideologues. The terror instructions given by Lenin, one such leader, are particularly striking:

"They must arm themselves as best they can (rifles, revolvers, bombs, knives, knuckle-dusters, sticks, rags soaked in kerosene for starting fires, ropes or rope ladders, shovels for building barricades, pyroxylin cartridges, barbed wire, nails, etc., etc.). . . To launch attacks under favourable circumstances is not only every revolutionary's right, but his plain duty. The killing of spies, policemen, gendarmes, the blowing up of police stations, the liberation of prisoners, the seizure of government funds for the needs of the uprising. . . every detachment of the revolutionary army must be ready to start such operations at a moment's notice." (Lenin Collected Works, Progress Publishers, 1972, Moscow, Vol. 9, pp. 420-424.).

That same terror nourished by Darwinism is one of the greatest scourges facing many countries of the world. Abdullah Öcalan, the baby-killer and leader of the Kurdistan Workers' Party (PKK), a terrorist organization responsible for the killing of countless soldiers in Turkey over the years, is known for his admiration of Darwin's heretical teachings:

"The natural process of evolution that goes on in all living entities except for man is also continued in a conscious manner, with its own conception and expression, in human society. The leap in conception that led to the present-day linguistic structure in the human species Homo sapiens permitted a leap in deliberate social structures. During the primitive social phase, human groups lived on the level of a kind of developed animal society..."

"The PKK followed a development compatible with the Marxist-Leninist tradition. It is clear that the next stage will take place on this legacy, components inseparable from one another like flesh and nail."
