

The Fundamental Philosophy Of Freemasonry: Darwinism -2-

As we explained in details in the first part of this text, the fundamental philosophy of freemasonry is based on Darwinism. That is because, though having no scientific aspect whatsoever, Darwinism is a fake ideology with a scientific guise propounded solely to make the mainstays of freemasonry (atheism, aimlessness, wars and degeneration), that is the system of the antichrist (dajjal), legitimate.

As we explained in details in the first part of this text, the fundamental philosophy of freemasonry is based on Darwinism. That is because, though having no scientific aspect whatsoever, Darwinism is a fake ideology with a scientific guise propounded solely to make the mainstays of freemasonry (atheism, aimlessness, wars and degeneration), that is the system of the antichrist (dajjal), legitimate.

Selami Isildag, a senior freemason, expressed how freemasonry unconditionally accepts evolution as follows:

In very brief terms, I want to mention some masonic principles, thoughts and practises: According to freemasonry, **life appeared from a single cell, and has reached human beings through conversion, transformation and evolution. The nature, reasons, purpose and conditions of the beginning can not be known. Life appeared from essence-energy and will turn back to it.** There is possibility of salvation from dogmanism only if the The Glorious Architect of the Universe is thought of and adopted as a glorious principle, the endless horizons of the good and beauty, the climax and the highest phase of evolution, the ideal of humanity, and not be impersonated.¹ (Allah is beyond that)

In these words the masonic concept called The Glorious Architect of the Universe is specified as the SATAN.

Another source clearly describes the relation of freemasonry with the notion of evolution and states that the basic reason why Erasmus Darwin, Darwin's grandfather, propounded the evolution was to lay a basis for freemasonry.

(Darwin's grandfather Erasmus Darwin is the first person who laid the basis of the theory of evolution. Erasmus Darwin is a senior member of Scottish Canongate Kilwinning no. 2 lodge.² Erasmus Darwin³, the founder of freemason and lunar communities, is a person who is related to Jacoben freemasons in France and masonic Illumination organisations making opposition to religion its primary purpose.⁴

Many New Age tenets of Universalism, occultism, **and Evolution are found in the Masonic Lodge. That is why Freemasons like Erasmus Darwin and others agreed with Evolution.**

...Evolution is a Mystery religion concept that relates to reincarnation. That is why New Agers typical accept the tenets of Evolution. Evolution teaches that natural selection created all life forms from less complex to more complex organisms (man is a final product of these chance filled gradual developments over billions of years). Reincarnation itself teach that man is evolving endlessly in many lifetimes until they reach perfection.⁵

The fact that Darwinism is a theory based on freemasonry is outlined in George H. Steinmetz's book, *Freemasonry: Its Hidden Meaning*, as follows.

... ancient secret doctrine, which is concealed in Masonic allegory and symbolism, teaches Evolution as surely as Darwin ever taught it; Reincarnation and the ... karma, which are included in, and are a part of, the teaching of scientific astrology.⁶

As stated earlier, Darwinism was especially adopted by freemasons in masonic lodges; senior freemasons MOCKED the theory while discussing it, yet still, for their purposes, had to decide to propagate it under a scientific guise.

For this end, the 33rd degree masons in question decided to get advantage of scientists and the media over whom they had influence.

(For detailed information please see, [The Fundamental Philosophy of Freemasonry: Darwinism -1-](#)) Author Phillip D. Collins, in his article in which he revealed the truth about the masonic system, *The Ascendancy of the Scientific Dictatorship*, expresses the kind of masonic deception upon which Darwinism is based:

The theory (Darwinism) itself is a dense amalgam of "isms," **thinly veiled occult concepts, philosophical doctrines, and ideologies. Again, Tennenbaum's statement that Darwinism "is based on absurdly irrational propositions, which did not come from scientific observations, but were artificially introduced from the outside, for political-ideological reasons"** seems succinct and accurate.⁷

By means of Darwinism, it was, of course, not difficult for freemasonry to cause outbreak of hostilities, to commit mass murders, genocide and racism. Freemasonry drifted the world into a horrible disaster by means of various senior freemasons, by making Darwinist ideology a basis to its objectives, and by brainwashing methods. This horrible plot caused more than 350 million lives. They experienced the destruction of two world wars without understanding what was going on.

Phillip D. Collins, outlines this fact as follows:

In *The Secret Cult of the Order*, Antony Sutton states: "Both Marx and Hitler have their philosophical roots in Hegel. It is here that one arrives at the Hegelian nexus where Darwin, Marx, and Hitler intersect. Recall that Nietzsche-ism, Darwinism and Marxism were all mentioned together in **the Protocols of the Wise Men of Sion**. This was no accident. Nazism (a variant of fascism) sprung from Nietzsche-ism. Communism sprung from Marxism. Both were based upon Hegelian principles. Moreover, both were **"scientific dictatorships" legitimized by the "science" of Darwinism.**

The interest of both Hitler and Marx in Darwinian evolution is a matter of history. While he was living in London, Karl Marx attended lectures on evolutionary theory delivered by T.H. Huxley.

Recognizing the odd synchronicity between the communist concept of class war and the Darwinian principle of natural selection, Marx sent Darwin a copy of *Das Kapital* in 1873. Enamored of evolution, Marx asked Darwin the permission to dedicate his next volume to him...⁸

Researcher Ian Taylor explains the following:

However, Fascism or Marxism, right wing or left - ... while **the foundation for each of these roads is Darwin's theory of evolution.**⁹

Phillip D. Collins adds the following regarding the matter:

In fact, in *Evolution and Ethics*, Keith candidly stated: **"The German Fuhrer (Hitler) as I have consistently maintained, is an evolutionist; he has consciously sought to make the practice of Germany conform to the theory of evolution"** (Keith, *Evolution and Ethics*, 230)¹⁰

In an analysis of Mein Kampf, contemporary author Werner Maser reveals that Darwin was the crucible for Hitler's "notions of **biology, worship, force, and struggle, and of his rejection of moral causality in history**".¹¹

In both the case of communism and Nazism, the results were enormous bloodbaths. **This is the natural consequence of Darwinian thinking and the legacy of the "scientific dictatorship."**¹²

In applying the ideas of Darwin, both communists and fascists have murdered millions. Both of these groups find their origins in the elite (the Illuminati), who are still pursuing the same objectives today. According to the Darwinian mantra of "survival of the fittest," victory will demand bloodshed...¹³

Freemasonry, that is the system of antichrist, infiltrated to masses under the appearance of Darwinism and led millions of people to be murdered. This system of the antichrist ruined nations and became the primary perpetrator of massacres against believers. The methods of this system of the antichrist has always been tried to be shown as reasonable and thought to be shown to have a scientific base under the veil of evolution. The fact is however, apart from being bereft of a single scientific proof, every scientific evidence once again demolishes this theory. The fact that Darwinism is a great deception is a certified, proven [fact](#).

The fact that people blindly adhered to such an obvious lie, the spread of such a hoax throughout the world and its influence over people, societies and countries is surely unbelievable. However, one can understand the reason of this deception when one considers the fact that this hoax is under the monopoly of freemasons.

Freemasons' plot, which is hatched behind the closed doors of mason lodges, is an efficient one that reaches all over world. Just as in the case of the theory of evolution, when they want to deceive a society or the entire world, they accomplish it by employing every sort of force under their hegemony including countries, governmental institutions, people or press.

By Allah's leave, the time when Prophet Jesus (as) and Hazrat Mahdi (as) will put an end to the system of disbelief is very close. In this period people will attain faith, welfare and peace, and follow the path shown to them by their conscience. The plot of the antichrist will come to an end, and by Allah's leave, they will be saved from the unrest caused by the antichrist.
