

RAMADAN 2010 - The 11th Day

Certainly there is a transmission in this for people who worship. (Surat al-Anbiya', 106)

You possess two qualities that Allah loves. These are clemency and tolerance. (Muslim)

The Support of the Good to One Another Should Not be Limited to Words

The majority of people actually have a good grasp of what good, righteous and conscientious conduct is. For this reason, when talking to others, one will find that the majority of people usually accept the good and positive and affirm their commitment to side with the good. However, when it is time to act, most of them remain silent and passive. Although they encounter many situations for which they could side with the good and defend them, they remain ambivalent.

There are many reasons for this silence. Fear of material loss is one of them. For instance, someone defending an innocent person from the alliance of the evil may attract the reaction of the evil and thus, with the fear of some material loss, stop defending him. Accordingly, he may be seized by certain concerns; he may fear that his status, career and reputation may be tarnished, or that he be subjected to slander. Paralysed by fear, they may not say or do what they actually know is just.

However, these people should be aware of the fact that words only please God when they are turned into action. God informs us about people who promise to engage in good deeds but withdraw when it is time to take action:

More fitting for them would be obedience and honourable words. When some matter is resolved, it would be better for them if they acted sincerely towards God. (Surah Muhammad: 21)

For this reason everyone who has faith in God, who is aware that he will give an account of his deeds on the Day of Judgement and, who believes himself to be a sincere and conscientious servant of God, must absolutely ally himself with the good and act with them. God warns people who fail to side with the righteous as follows:

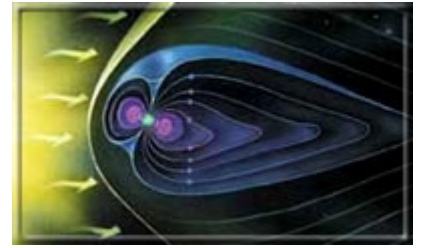

You who believe! Why do you say what you do not do? It is deeply abhorrent to God that you should say what you do not do. (Surat as-Saff: 2-3)

The Van Allen Belt

"The Van Allen Belt," a layer caused by the magnetic field of the Earth, also serves as a shield

against the harmful radiation that threatens our planet. This radiation, which is constantly emitted by the Sun and other stars, is deadly to living things. If the Van Allen belt did not exist, the massive outbursts of energy called solar flares that frequently occur in the Sun would destroy all life on Earth.

The energy transmitted in just one of these bursts detected in recent years was calculated to be equivalent to 100 billion atomic bombs similar to the one dropped on Hiroshima. Fifty-eight hours after the burst, it was observed that the magnetic needles of compasses displayed unusual movement and 155 miles above the earth's atmosphere, the temperature suddenly increased to 4532 degrees Fahrenheit.

In short, a perfect system is at work high above the Earth. It surrounds our world and protects it against external threats. Scientists only learned about it recently, yet centuries ago, God informed us in the Qur'an of the world's atmosphere functioning as a protective shield.

The showy harridan mentality in the religion on ignorance

AL-QABIDH

The Seizer, The Restricter

Is there anyone who will make Allah a generous loan so that He can multiply it for him many times over? Allah both restricts and expands. And you will be returned to Him. (Surat al-Baqara, 2:245)

Allah, the sole Owner of everything, created all beings and furnished Earth with blessings that will meet their needs. All forms of wealth actually belong to Him, for He is its sole owner. In this world, Allah does not grant wealth to everyone. Yet, both the well-off and the poor need to remember that Allah grants and owns everything.

Allah tests those people to whom He grants wealth by how they use this blessing, and expects them to be thankful. Meanwhile, He restricts the wealth of others as a test of their gratefulness to Him. Consequently, whatever people lack or possess are not gains for them; rather, they are a test from Allah to see whether they want the life of this world or the next.

So fear [and be aware] of Allah, as much as you are able to. Listen, obey, and spend for your own benefit. It is the people who are safe-guarded from the avarice of their own selves who are successful. If you make a generous loan to Allah, He will multiply it for you and forgive you... (Surat at-Taghabun, 64:16-17)

Allah also grants many spiritual blessings in this worldly life. When He wills, He may test people through the imperfections related to these blessings by creating various tests. On the other hand, due to their insistence upon unbelief, Allah may repay unbelievers in this world by willing them to experience trouble and anxiety in their hearts. In such a situation, people have to realize that Allah saves them from all forms of trouble and hardship. Just as He restricts, He also expands (al-Basit). To the hearts of His sincere servants who only turn to Him for help, Allah gives serenity, peace, and a feeling of relief. He supports them with His help, love, and mercy, and also alleviates their tasks. In the Qur'an, Allah reminds us that all hearts find peace only in the remembrance of our Lord, as follows:

Those who have faith and whose hearts find peace in the remembrance of Allah. Only in the remembrance of Allah can the heart find peace. (Surat ar-Ra'd, 13:28)

Hazrat Mahdi (as) will be someone with green eyes and whose beard is sparse at the sides

HE [HAZRAT MAHDI (AS)] IS A YOUNG MAN WITH GREEN EYES (A'IUN AL-KHADHRA), CURVED EYEBROWS, A SNUB NOSE AND A THICK BEARD THOUGH BEARDLESS TOWARD THE RIGHT CHEEK. (Reports coming in about the Mahdi, *(Nur al-Absar) The Ahl Al-Bayt and the Twelve Imams, Chiefs of the Saints and Stories of the Imams of the Schools (1250)*, Translated by: Saim Gungor, (Pamuk Publications, April 2004 Vol: 628 77 93) pp. 588-589)

Hadiths transmitted from our Prophet (saas) provide important information about Hazrat Mahdi's (as) external appearance..

1.

HE [HAZRAT MAHDI (AS)] IS A YOUNG MAN... WITH GREEN EYES (A'IUN AL-KHADHRA).

According to hadiths concerning Hazrat Mahdi (as), he will have green eyes.

2.

HE [HAZRAT MAHDI (AS)] IS A YOUNG MAN WITH ...CURVED EYEBROWS,

One of the features in the recognition of Hazrat Mahdi (as) is his curved eyebrows:

"HIS [HAZRAT MAHDI'S (AS)] EYEBROWS ARE CURVED. (Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah, p. 163)

3.

HE [HAZRAT MAHDI (AS)] IS A YOUNG MAN... WITH A SNUB NOSE

According to the hadith revealed by our Prophet (saas) the nose of Hazrat Mahdi (as) will be small and smooth with a slight protrusion in the middle part:

"HAZRAT MAHDI (AS) has thick hair, a broad brow and a slight cavity on his brow. **HIS NOSE IS SMALL AND THERE IS A SMALL PROTRUSION ON THE CENTER OF HIS NOSE..."** (Bihar al-Anwar, Vol. 13)

4.

HE [HAZRAT MAHDI (AS)] IS A YOUNG MAN WITH...A THICK BEARD.

Hazrat Mahdi's (as) beard is very attractive and thick.

His [Hazrat Mahdi's (as)] beard is thick.
(Al-Barzanji, Al-Isha'ah li-ashrat al-sa'ah, p. 163)

His [HAZRAT MAHDI'S (AS)] beard will be copious and thick.
(Ibn Hajar al-Haythami, Al-Qawl al-Mukhtasar fi `Alamat al-Mahdi al-Muntadhar, p. 23)

5.

HE [HAZRAT MAHDI (AS)] IS A YOUNG MAN ...BEARDLESS TOWARD THE RIGHT CHEEK.

In this hadith our Prophet (saas) provides detail about the shape of Hazrat Mahdi's (as) beard. He says that the texture of his beard will be light and thin at the sides while the lower part is long.

... FROM THE SONS OF TEMIM, **A MAN OF AVERAGE HEIGHT, DARK, MACTHUM (SPARSELY BEARDED), KAWSAJ (WITH A LIGHT BEARD AT THE SIDES AND LONG IN THE FRONT; ANOTHER MEANING IS FROM**

YEMEN ORIGIN); ... ONE WHO WILL BE KNOWN AS SHUAYB IBN SALEH... (Ibn Hajar al-Haythami, al-Fatawa al-Hadithiyya, p. 41)

By using the word "macthum"," or "sparsely bearded," in the above hadith, our Prophet (saas) is saying that Hazrat Mahdi (as) will have a light kind of beard, like his own, rather than a heavy one. In this hadith, as in the other one, he says that Hazrat Mahdi's (as) beard will be thinner at the sides, along his cheeks, while the lower section will be longish.

Why Do Defenders Of Creation Who Say The Earth Is 4.5 Billion Years Old Disturb Darwinists So Much?

Adnan Oktar

Christian defenders of Creation have for years been claiming that the Earth is 6000 years old. Darwinists, who imagined that this played right into their hands, have recently been dealt a new body blow. Adnan Oktar's (Harun Yahya) stating in his works that the data show that the Earth is 4.5 billion years old and his showing, with supporting evidence, that the life on it is the work of Almighty Allah, was one of the heaviest blows dealt to Darwinism.

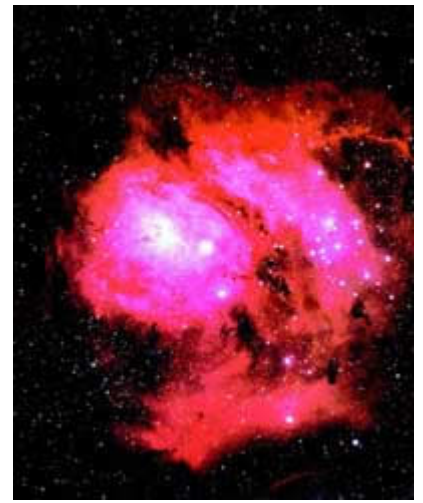

Conferences on evolution held recently by world famous Darwinist professors have all been built on this huge defeat. For years, Darwinists regarded the "6000-year-old Earth" claim as one they could easily digest with the fossils dating back millions of years in their possession. They claimed that the defendants of Creation were defeated right from that point. This claim was heralded as one of the greatest proofs confirming the truth of Darwinist fraud. Christian Creationists who maintain that the Earth is 6000 years old are defeated the moment they make such a statement, no matter how powerful the evidence they possess against Darwinism. Indeed, these claims have led to the scientific facts they brought up against evolution not being evaluated properly. Because the idea of "6000 years" conflicts with the scientific facts. It is because of this huge inconsistency that certain Christian Creationists in Europe and America have always been unsuccessful and passive.

Christian Creationists accept this statement as it is in the Gospel while making no interpretation of it. But the fact is that, analyzed on the basis of the proofs of Creation on Earth, the reference to an Earth of 6000 years is used in a very different sense. Creation in six days also appears in the Qur'an:

Your Lord is Allah, Who created the heavens and the earth in six days and then settled Himself firmly on the Throne... (Surat Al-A'raf, 54)

He directs the whole affair from heaven to earth. Then it will again ascend to Him on a Day whose length is a thousand years by the way you measure. (Surat as-Sajda, 5)

Taking the reference to six days in the one verse together with the idea that one day is a thousand year from the other verse, the result is a reference to the Earth having a life of 6000 years. But what needs to be considered here is not the literal meanings of these expressions, but their deeper and figurative ones. Because the reference that our Lord makes to Creation in six days actually stands for "periods." Bearing in mind the relativity of time and the speed at which time has passed since the Big Bang to make a calculation, the reference to 6 days in the verse in fact points to a period of billions of years. Calculating every day of Creation in terms of Earth time, the following picture emerges:

Looked at in terms of since time began, the 1st day (1st age) of Creation lasted 24 hours. But this equals 8 billion years in terms of how we perceive time on Earth.

- The 2nd day of Creation (2nd age) lasted 24 hours. But this lasted half as long as the previous day, according to our perception of time. In other words, 4 billion years.
- The 3rd day (3rd age) lasted half as long as the second. In other words, 2 billion years.
- The 4th day (4th age) lasted 1 billion years.
- The 5th day (5th age) lasted 500 million years.
- And the 6th day (6th age) lasted 250 million years.
- Conclusion: The six days, or six ages, of Creation, added up together in terms of Earth time, produce a total of 15.75 billion years. This figure is in agreement with modern estimations. (You can find a more detailed statement on the subject here.)

Darwinists Are Unable to Oppose Adnan Oktar

As we summarize here in brief, the Creation in six days that Allah reveals in the Holy Books gives the age of the Earth that we already know scientifically. In the light of this, the intellectual struggle against Darwinism waged with fossils dating back millions of years has stunned Darwinists. Not a single Darwinist is at present able to stand up and oppose Adnan Oktar, who has shown the whole world scientific proof that Creation is an absolute reality. They are unable to issue any statements against it, and are quite unable to defend the illogical accounts they used to supply.

Adnan Oktar's invitations to face-to-face debates with world renowned Darwinists have so far gone unanswered. Because all Darwinists are very well aware that Adnan Oktar will beat them. Adnan Oktar has also frequently reiterated his offer of giving a large reward to anyone producing a single transitional fossil, but that challenge has not been taken up by Darwinist circles, either. The reason for this is that Darwinists themselves they have been defeated in the face of Adnan Oktar, or rather in the face of our Lord's sublime Creation. Darwinists no longer have a single false means of defending this ruined and disgraced theory. Darwinists never of course dreamed that the 21st century would be one of such a defeat for them, and now they are unwillingly watching this huge collapse take place.

Our Almighty Lord says in one verse:

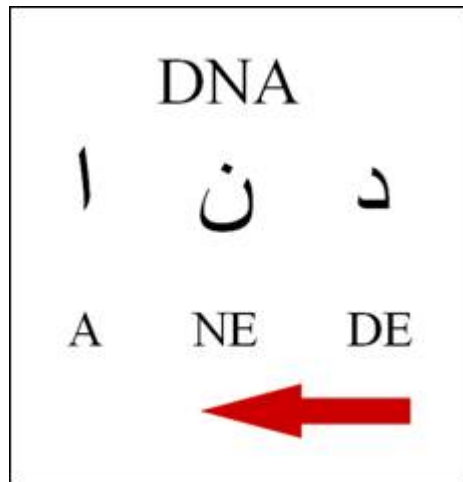

Glory be to the Lord of the heavens and the earth, the Lord of the Throne, beyond what they describe. (Surat az-Zukhruf, 82)

DNA AND THE BEGINNING OF GENETIC HISTORY

The term DNA is an abbreviation of the genetic material in living things. The beginning of the science of genetics dates back to genetic laws drawn up by the scientist Mendel in 1865. The date, a turning point in the history of science, is referred to in verse 65 of Surat al-Kahf, or verse 18:65.

فَوَجَدَا عَبْدًا مِنْ عِبَادِنَا اتَيْنَاهُ رَحْمَةً مِنْ عِنْدِنَا وَعَلَّمْنَاهُ مِنْ لَدُنَّا عِلْمًا

When the appearance of the letters D-N-A (Dal-Nun-Alif in Arabic) side by side in places in the Qur'an is examined, they appear most frequently in verse 65 of Surat al-Kahf. The letters D-N-A appear side by side three times in this verse, in a most incomparable manner. In no other verse of the Qur'an do the letters "DNA" appear consecutively so often.

The number of this exceptional verse in which the term DNA appears so strikingly is 18:65. These numbers are an expression of the date when the science of genetics began. This cannot be regarded as a coincidence. Because only in verse 18:65 of the Qur'an do the letters "DNA" appear three times consecutively. This is something miraculous, because the scientific world only came up with the name DNA (Deoxyribo Nucleic Acid) comparatively recently.

In Surat al-Kahf, which refers to DNA and the year 1865 when the science of genetics began, DNA is repeated 7 times, as is RNA (the Arabic letters Ra-Nun-Alif). Like DNA, the RNA molecule is a molecule giving rise to genetic structure. For that reason, the appearance of DNA and RNA an equal number of times in this Surat is further proof that these molecules were referred to in the Qur'an hundreds of years ago. (Allah knows the truth.)

TURTLE

Age: 38-23 million years
Period: Oligocene
Location: Brule Formation, Sioux County, Nebraska, USA

Investigations have turned up fossils of turtles that are 300 million years old, on average. The one pictured here is about 30 million years old. Such fossils definitely prove that turtles did not change over all these years but maintained their original form: Living creatures did not evolve, but were created by Almighty God.

Solution in Middle East is Turkey's leadership

What He Said

Konya TV, February 28- 2008

Adnan Oktar: Turkey's task is to be the leader of the Turkish-Islamic Union. A big task falls on to Turkey. The leadership of the Turkish-Islamic Union is one of the biggest tasks of world history. One of the most vital tasks of Turkish nation is this. But as the Turkish nation, we are responsible to save not only Turkey but also the entire Turkic and Islamic realm. Turkish nation is really not like any other nation. This is not racism. They are faithful. They are well-mannered, the Turks. They are humane. They are very compassionate. And they are very devoted. Just go to a village. Go to a village as a guest. The most beautiful part of the house is prepared for the guest. The most quality food is treated to the guest, the most comfy bed is prepared for the guest and the most beautiful glasses are used for the guest. What does it mean? It means that our people are not egoistical, not selfish, but full of love, devoted and very rapturous people, eager to give their life for Allah, very excited people.

Başkent TV, January 13- 2009

Adnan Oktar: It has ruled three continents and has had experienced. It has a state experience, and empire experience. We would like to rule the whole region as the leader of the Turkish-Islamic Union by bringing out this experience again, and everybody wants this. The Syrians want this, Iraqis want this, Egypt wants this, Iran wants this and even Armenia wants this, Azerbaijan wants this, Turkestan wants this, East Turkestan wants this, everybody does. Everybody trusts in the justice, mind and devotion of the Turks and Turkish soldiers are loved all over the world. The unbelievers, Muslims and misbelievers, they all love them.

What Happened

Yenişafak, April 19- 2010

Ortadoğu'da çözüm Türkiye'nin liderliği

Esenler Belediyesi'nin geleneksel İslak getirdiği Esenler Bahçemaları'nın altıncı konğu Gazeteci ve Araştırmacı-Yazar Hakan Albayrak oldu. Konuşmasında Ortadoğu'da yaşanan sorunların sını olacağını anlatan Albayrak, çözümün ise Türkiye'de olduğunu vurguladı. Dünyanın her yerinde milliyetçiliğin saçma olduğunu belirten Albayrak, "Ama bu topraklarda daha sağlamdır. Türkiye ile Suriye sını saçma ve aşğıktır. Sınların zaman içinde kalkması olabilecek şey de değildir" diye konuştu.

NEDEN BU SINIRLAR VAR
"Bugün Suriye sokaklarında 'bu toprakların en büyük kahramanı kim' diye

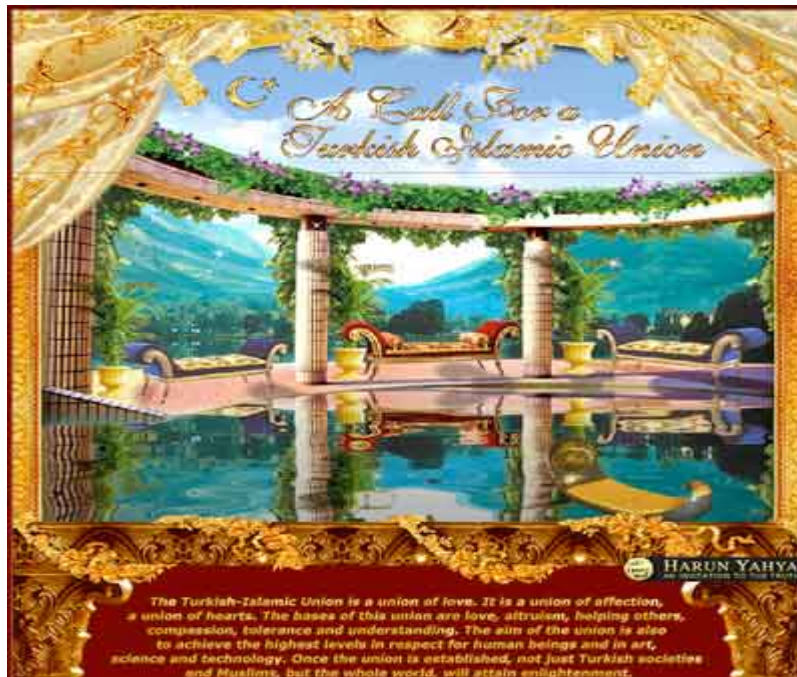

Hakan Albayrak

sorsanız, bir Türk olan Nurettin Zengin ve 'bir Kürt olan Selhattin cevaplar alırsanız' diye Albayrak, "Tarihimiz, kültürümüz, kahramanlarımız aynı. O halde neden bu sınırlar var" ifadelerini kullandı. Davos'un sembolik bir çıkış olduğunu ifade eden Albayrak, Başbakan Erdoğan'ın çıkışını İsrail'e maddi bir zarar vermediği, ancak İslam dünyasının bu sayede siyasi istiknata kavuştuğunu belirtti. Televizyon programı için gittiği Tunus'ta yaşadığı bir olayı anlatan Albayrak şöyle konuştu; "Yaşlı bir adama mikrafon uzatıp bir mesaj var mı diye sordum. Yaşlı adam, 'ne mesaj vereyim. Mesajı Davos'ta Türkiye verdi. Bir oturup oturam' dedi." ■ İSTİBARAT SERVİSİ

**The solution in Middle East is
Turkey's leadership**

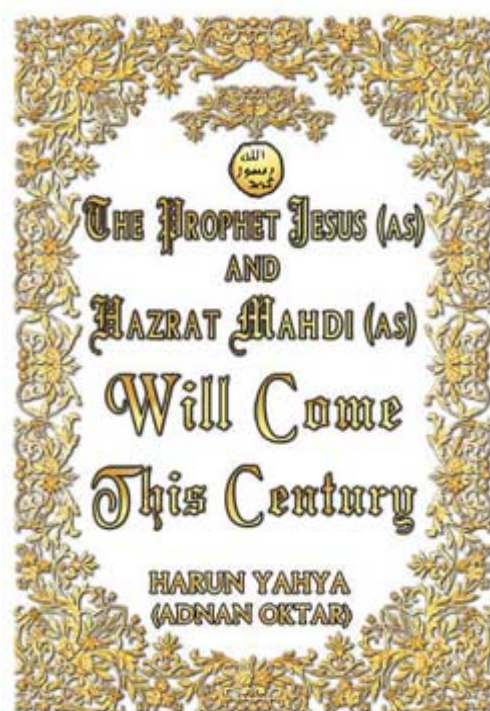

[Turkish Islamic Union](#)

The Turkish-Islamic Union is a union of love. It is a union of affection, a union of hearts. The bases of this union are love, altruism, helping others, compassion, tolerance and understanding. The aim of the union is also to achieve the highest levels in respect for human beings and in art, science and technology. Recent developments show that the foundation of the Turkish-Islamic Union, awaited with great excitement and enthusiasm by the Turkish-Islamic world, is close at hand.

[The Prophet Jesus \(as\) and Hazrat Mahdi \(as\) will come this century](#)

This book aims to enable both Muslims excitedly awaiting the Prophet Jesus (as) and Hazrat Mahdi (as) and everyone interested in the subject to obtain the most accurate information and access the most trustworthy sources; it is for them to be able to learn important facts regarding these holy individuals from valuable hadiths that have been scrupulously transmitted from the Prophet (saas) and down the centuries to the present day. In this way, Muslims, the Islamic world and everyone on earth will be able to follow these significant events of such great importance for human happiness and to ready themselves for these historic events both better and faster.
