

Congeniality brought success

Mersin TV, September 5- 2008

Adnan Oktar: By the will of Allah, Turkey is going to be a great country and the Turkish-Islamic Union will be established. **Turkey will embrace the whole Middle East, Balkans, Asia with a spirit of a big brother, Insha'Allah.** And just pay attention that a gorgeous system will be established. The Caucasia Treaty is in the formation process and as you may know we have a railway project as well as projects of gas and natural gas pipelines. The Islamic Union meetings are being held. There are studies going on to make a stronger Turkic Union. All these are beneficial Insha'Allah. As you may already know Anatolia is the cradle of many civilizations. **As you may also know The Ottoman Empire reigned through the Middle East, Balkans, all three continents from here Insha'Allah. The same system will be established just like that under the spirit of love, friendship and brotherhood.**
