

# Surat al-Ahzab, 60 (Hypocrites, Those with sickness in their hearts)

Excerpt from Mr. Adnan Oktar's live interview on TV, September 9th, 2010

**If the hypocrites and those with sickness in their hearts and the rumour-mongers in Madina do not desist, We will set you onto them. Then they will only be your neighbours there a very short time. (Surat Al-Ahzab, 60)**

Allah takes an oath. Those having sickness in their hearts resemble hypocrites very much. But Allah primarily cites hypocrites, for the state of hypocrites is indecent. They are the ones who are at the most bottom of Hell. But those with sickness in their hearts can be cured.

Rumour-mongers in Madina: those who spread fabricated news or stir unrest. If those hypocrites attempting to stir doubts and suspicions about Muslims, those attempting to blemish Islam continue such behaviour; that means Muslims will attack them with science, knowledge and ideas. He will not stop. Against hypocrites' attack, Muslims will respond. This is obligatory.
