

# The Deen Institute organized a conference about the invalidity of Darwinism and creation by Allah

At Logan Hall in London, the Deen Institute organized a conference named "Did Muslims misunderstand the evolution?" Dr. Oktar Babuna presented the invalidity of Darwinism while explaining the scientific facts and the verses of the Qur'an.

The lecturers from United Kingdom, United States and Canada explained in detail that there is no proof of evolution in the Qur'an but there is a fact that everything has been created all of a sudden by Allah. Besides, a fossil exhibition was organized in scope of the conference.

Almost 1000 people attended the conference and they applauded enthusiastically at the end.

The Guardian, one of the prominent newspapers of United Kingdom, published news about the conference and mentioned about Dr Oktar Babuna's presentation about the invalidity of evolution.
