

TIGER SKULL

Evolutionist efforts to portray the supposed evolutionary ancestor of the tiger are pointless. Fossils have proven that tigers are not descended from any other life form, but have always existed as tigers. The fossil pictured shows that tigers living 80 million years ago were identical to those alive today, effectively silencing all evolutionist claims to the contrary. Living things did not emerge as the result of mutation and chance. Almighty God, Lord of sublime creative power, has created all life forms.
