Dear Madams, dear Sirs,

I am a staff writer working for SPIEGEL ONLINE, the news website of DER SPIEGEL magazine in Germany and the most-read internet news site in the German-speaking part of the world. A couple of days ago, you have sent us the "Atlas of Creation" by Harun Yahya. Perhaps you could kindly answer my questions, which are the following:

- the "Atlas of Creation" is a monumental piece regarding its size and splendour. How long did it take to produce it and what's the approximate cost for one volume?
- I assume the Atlas was not sent to SPIEGEL ONLINE alone. How many other media outlets, schools and/or individuals, in Germany as well as in other countries, received a copy of the Atlas?
- what was the total cost of sending the Atlas to its international receivers?
- where does Harun Yahya as an organisation get its funds from?
- how successful was Harun Yahya in the western and the Islamic world during the last years?

Please you can be so kind to answer these questions within the next 24 hours (until 11 hours GMT).

Best regards

Markus Becker

Yazarla ilgili detaylı bilgi edinmek isteyen *Spiegel* web sitesi yazarı, sorularını sıralamadan evvel, mektubunda *Yaratılış Atlası* ile ilgili şöyle demektedir:

Ben, SPIEGEL ONLINE'ın kadrolu bir yazarıyım. Burası Almanya'daki DER SPIEGEL dergisinin haber web sitesidir ve dünyanın Almanca konuşulan bölgelerinde en çok okunan internet haber sitesidir. Birkaç gün önce bize Harun Yahya tarafından yazılan *Yaratılış Atlası*"nı gönderdiniz. *Yaratılış Atlası* büyüklüğüne ve ihtişamına bakıldığında heybetli bir eserdir...

Saygılarımla,

Markus Becker
